How to use Auto Report to File in NI

How to use Auto Report to File feature of Network Inventory?

In this tutorial we will guide you through using Auto Report to File feature of EMCO Network Inventory

To use Auto Report to File perform the following steps:

1. Expand the Networking node.
2. Now expand the required Network node.
3. Select the domain/workgroup you want to operate.
4. Press the Ctrl key and select the machines you want to process.

5. Switch to Options Tab.
6. Expand Auto Processing node.
7. Expand Auto Report to File node.
8. Check Active check box under Auto Report to File node.
9. Select the required action after which you want to automatically report to file from the Process After drop-down list.
10. Select the required file type from the Format drop-down list.
11. Switch back to Manage Tab.
12. This will set Auto Report to File for the selected machines.
